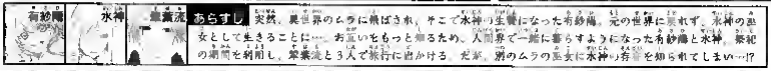
I will not expect anything

Putting my expectations too high would be problematic

Just a little ... I understand



He is a god afterall
What?
No nothing
Im just thinking about how used to this I got
Priestess we just have to observe those people right?
Thats right, so dont take your eyes of them
Listen, I know you dont understand, ... but this .. is very important for the future of this country
Ah
We must discover his identity and inform the great king

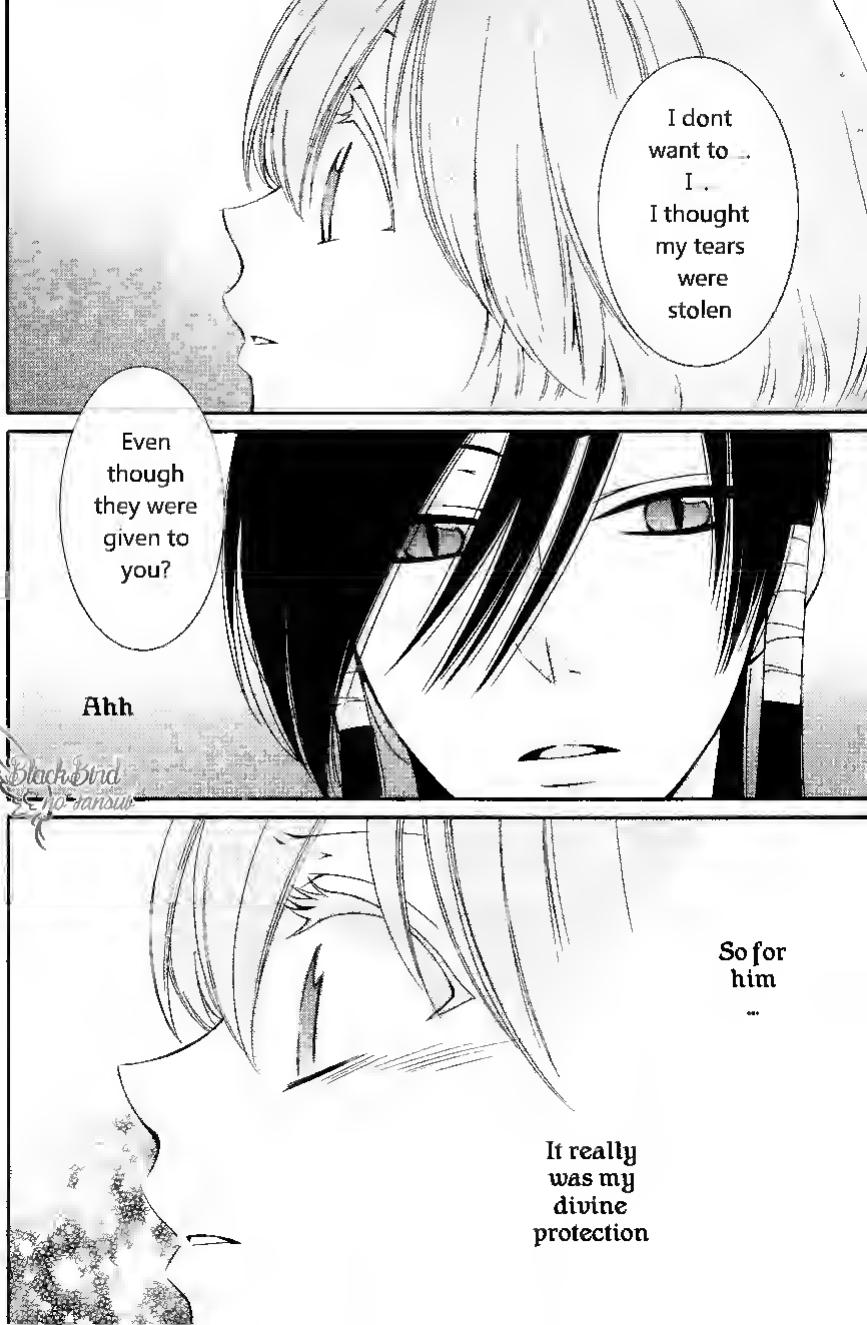
?

It feels like Im getting to know a little more
Listening to water god ask me something first instead of the other way around

Black Bird
Hey, water god
Why does rain fall every time I cry?

Hmm ....

I
...
Hey
...
Why?
...
So in the end you still ask
Black Bird Ep. Tanoub
I became unable
...
To cry freely
...
Then cry, let them go



I dont want to .. I . I thought my tears were stolen
Even though they were given to you?
Ahh
So for him ...
It really was my divine protection

Then ... The next time the rain falls

The next time I cry ...

Come and stay by my side

Faster than anyone

To comfort me

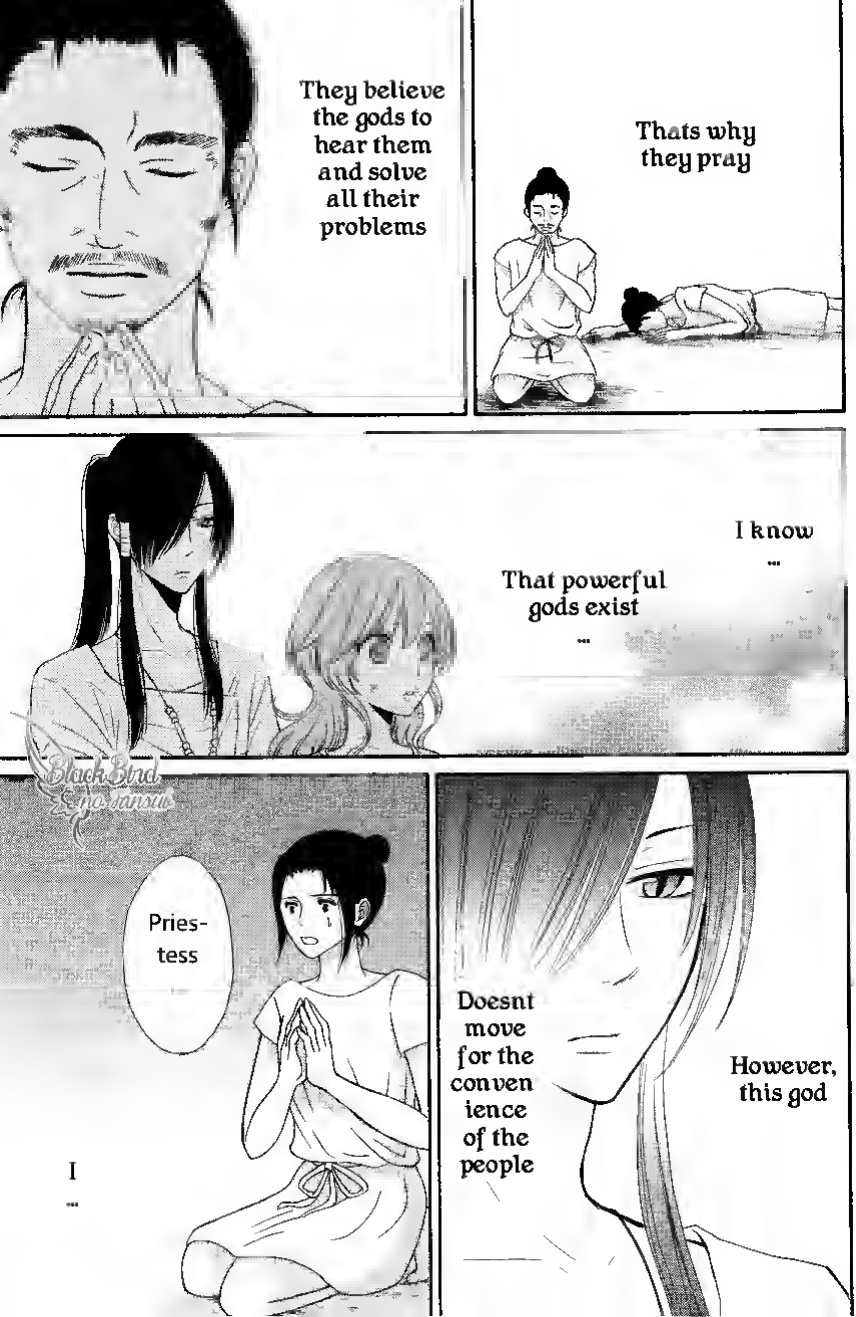
They still believe mysterious things are the work of spirits
I know that in this world theres a lack of knowledge



They believe the gods to hear them and solve all their problems
Thats why they pray
I know ...
That powerful gods exist ...

Its Shina, she collapsed!
